> ELECTRIC POWER one of the

CHEAPEST items in the cost of

MANUFACTURING E LECTRIC Power is one of the most important "Tools" in industry. Many a factory could not operate without it. One

The cost of electric power is so low that if it were free the average manufacturer could not make more than a 3% reduction in the price of his commodities. Figures from the last United States Census giving the cost for both fuel and electric power for such industries as food manufacture, lumber, paper, machinery, iron and steel, transportation, rubber, textiles, wood products and the like show that the cost of electric power represents an average of only 3% of the total cost of making these products.

of the most important-yet one of the cheapest.

In the home, too, Electricity is one of the most important "tools"-yet one of the cheapest. Each year it serves in more ways, does more work, at rates averaging steadily lower. Average home rates in 1926 were 35% higher than for 1930.

names?" He spoke aloud, to himself, as he often did. "They must be more'n a hundred—I guess."

The boy was nearly sixteen. Still the great gilt letters on the sides of ferry boats were unfathomable to him. He searched his mind for a meaning—but all letters were weird, mysterious. W-H-E\_LL-I-I-N-G. His eyes traced the similarity of form.

Down in the little cabin of the Cavalier, the boy, John Breen, often lay in his bunk, behind the dresser, listening to Mother Breen reading aloud, or half aloud, her lips moving, "Speaking out of the little cabin of the water was blotted from his clothing; strong arms seemed to swimmer, a great help and comfort to his mother. Suddenly he had grown almost over night, bursting out of his clothing. The fact that his laught and a certain trick of pawing throught his hair reminded her of another wild impetuous boy caused Harriet Breen to flush. John's father had been only a few years older, when she came to the Cavalier.

"We got to put Johnny to school," Mrs. Breen remarked to Captain Breen, busy at the small coal stove, turning a pan of bishout the shading aloud, or half aloud, her lips moving, "Speaking out of the water was blotted from his clothing; strong arms seemed to enfold him. The terror and turnoil of the night development of the movement of the water was blotted from his clothing; strong arms seemed to enfold him. The terror and turnoil of the night development of the movement of the water was blotted from his clothing; strong arms seemed to enfold him.
